## Professional Summary:

Versatile Systems Engineering student (Final Year) with 10+ years of previous professional experience in project management, digital platforms, digital communication, and education technology. Demonstrated ability to quickly adapt and excel across multiple technical domains including infrastructure management, web development, IT support, and automation with advanced soft skills in stakeholder management, documentation, and user training.

Currently focused on Cloud/DevOps paths (Linux/Docker) but equally capable and eager to contribute in IT Support, QA, Assistant Product Management, Web Development, or AI/ML implementation roles where I can leverage my unique combination of technical skills, learning agility, and stakeholder management experience. I offer the reliability of a senior professional with the adaptability of a junior engineer.

## Technical Skills:

### Systems & Infrastructure

- Linux (Ubuntu, RHEL, AlmaLinux), Bash Scripting (Automation), Virtualization (KVM/QEMU, VirtualBox), Windows Server.
- Network fundamentals, TCP/IP, DNS, DHCP, Firewall.
- Platform administration: Moodle, WordPress, Webflow, cPanel.

### Development

- Web: HTML5, CSS3, JavaScript, SCSS, Bootstrap, Responsive Design
- Frameworks: Angular, Astro, Spring Boot (Java)
- Version control: Git, Github.

### IT Management

- Scrum, Project Management, Design Thinking

- Technical Writing, Knowledge Management, Markdown, Wiki.

### AI & Emerging Technologies

- Familiar with ChatGPT, Claude, Gemini.
- n8n (Basic Automation), GenAI Prompting.

### Design & Collaboration Tools

- Graphic Design and UI: Illustrator, Inkscape, GIMP, Figma, Canva, Balsamiq, PowerBI
- Asana, Trello, Project Management Tools
- Office 365, Google Workspace, LibreOffice, OnlyOffice.

### Languages

- English (C1)
- Spanish (native)

## Professional Experience:

### Responde S.A.C. (Social and Education Consultant)

Remote, Lima – Perú | October 2025 - Present

#### Technical Consultant - Moodle Platform Support & Management

- System Administration: Managed the Moodle platform for virtual courses, handling user enrollment, course configuration, and course design.
- Technical Support: Resolved technical incidents for students, diagnosing login issues and data discrepancies.
- Data Analysis: Processed reports on student progress and completion rates to assist stakeholders in decision-making.

### Web and Technology Consultant

2015 – Present

- Web Implementation: Designed and deployed websites using CMS and no-code platforms (WordPress, Webflow) and HTML/CSS/Bootstrap for diverse clients (Human Resources, Construction, Entrepreneurship NGO).
- Acted as a Product Owner proxy, translating client business needs into technical specifications and deliverables.
- Training: Conducted workshops on Digital Marketing, Design Thinking and AI tools to non-technical audiences.

### Ventura Soluciones (Software Factory)

Hybrid, Lima, Peru | November 2023 – March 2024

#### Training Consultant

- Optimized internal training platforms (MS Teams, Thinkific) through technical, pedagogical, and content improvements
- Provided technical support and troubleshooting for end-users, monitoring of training, management and evaluations.

### Municipalidad de Miraflores – Lima, Peru

2019 – 2022

#### Manager, Miraflores Innovation Center

- Organization of 250 webinars during the Covid-19 pandemic using Streamyard, OBS Studio and Zoom.
- Conducted technical training sessions in web design, digital tools, and office applications.
- Promoted and implemented cost-saving open-source tools for the internal content team.

## Education:

- Computer Systems Engineering - 9<sup>th</sup> Cycle, Expected Graduation: Dec 2026 - Universidad Privada del Norte (UPN)
- Scrum Fundamentals Certified - SCRUMstudy (Certificate #1059625) - December 2024
- Bachelor's in Social Communication – Universidad Nacional Mayor de San Marcos (UNMSM) – Lima, Peru.  
Note: Provides a strong foundation in organizational communication and research.
